SXTsq Lite60

The SXTsq Lite60 is a new model in our 60 GHz lineup. This is a low cost CPE unit for connecting to a 60 GHz AP, enabling you to build a cost effective point to multipoint setup in the clean 60 GHz wireless spectrum. Connect up to eight of these CPE units to a 60 GHz access point, such as our wAP60G AP.

For links up to 200 meters, this is the best alternative for wireless connections where 2 and 5 GHz wireless space is crowded and unreliable, at a fraction of the cost. Small, lightweight, compact and very affordable, this is a 60 GHz device like no other before.

24 V 0.38 A power adapter

Metal ring

PoE injector

Specifications

Product code	RBSXTsq-60ad
CPU	QCA9531
CPU nominal frequency	650 MHz
CPU core count	1
Size of RAM	64 MB
Storage	16 MB Flash
10/100 Ethernet ports	1
Wireless bands	60 GHz radio
Protocols	802.11ad
Wireless chip model	AR9344
PoE in	Yes
Supported input voltage	12 V - 30 V, passive PoE
Dimensions	129 x 129 x 34 mm
Operating temperature	-40 to 50° C
License level	3
Operating System	RouterOS
Max Power consumption	6 W

QuickMount Pro adjustable mount available separately.
