HGO-antenna-OUT

Add dual-band wireless coverage to your outdoor setup. The HGO-antenna-OUT is a screw-on omnidirectional antenna with RP-SMA male connectors, providing 3.6 dBi gain for 2.4 GHz and up to 6.7 dBi gain for 5 GHz operation. Simply attach two antennas to a compatible device such as the NetMetal ax to create a powerful outdoor dual-band access point.

Specifications

Product code	HGO-antenna-OUT
Frequency range	2.4–2.5 GHz / 5.15–5.85 GHz
Antenna type	Omnidirectional
Gain	3.6 dBi (2.4 GHz), 6.7 dBi (5 GHz)
Polarization	Linear
Impedance	50 Ω
Connector	RP-SMA Male
