LHG Lite60

The LHG Lite60 is a new model in our 60 GHz lineup. This is a low cost CPE unit for connecting to a 60 GHz AP at longer distances, enabling you to build a cost effective point to multipoint setup in the clean 60 GHz wireless spectrum. Connect up to eight of these CPE units to a 60 GHz access point, such as our wAP60G AP. For links up to 800 meters, this is the best alternative for wireless connections where 2 and 5 GHz wireless space is crowded and unreliable, at a fraction of the cost. Lightweight, compact and very affordable, this is a 60 GHz device like no other before.

Specifications

Product code	RBLHG-60ad
CPU	QCA9531 650 MHz
Size of RAM	64 MB
Storage	16 MB Flash
10/100 Ethernet ports	1
Wireless	Built-in 60 GHz 802.11ad
PoE in	Yes
Supported input voltage	12 V - 30 V, passive PoE
Operating temperature	-40 C .. +50 C
Dimensions	Ø 391 x 222 mm
Max Power consumption	4 W
License level	3
