RouterBOARD 750GL

The RB750GL is a small SOHO router in a white plastic case. It has five independent Gigabit Ethernet ports and optional switch chip functionality for wire speed Gigabit throughput.

It's probably the most affordable MPLS capable Gigabit router on the market and now it is even more affordable than before. Compared to the previous model, the RB750GL has almost the same performance, but is significantly lower cost, **only $59.95!**

With it's compact design and clean looks, it will fit perfectly into any SOHO environment.
