Dependencies and limits

Host listing is conditional on the exact slot, carrier/adaptor, installed DSP, software release, operating mode and licence. The selection tool does not certify a complete simultaneous slot allocation. Check the full per-host conditions in the product page and compatibility CSV before supply. Do not equate NM, NIM, SM-X, PIM, SPA, EPA or MPA form factors. Chassis support is not operator approval. Confirm regional bands, antennas, modem firmware and service provider support.
